Why choose M3Central?

- A single system with two interfaces - Diagnostics for your CSA's and Reporting for your tenants

- Incredibly intuitive – effortlessly navigable for non-technical staff and tenants alike so much so that the user can request a repair in under 90 seconds

- Designed to be used out of the box - swift and seamless deployment

- All software upgrades are expertly handled by M3 - no downtime for your organisation

- Compatible with NHF Schedule of Rates or a bespoke schedule of rates

- Interface is customisable to suit your organisation - your organisation can add new repair options and edit the existing advice and messages. Your organisation colours can also be applied to your interface

- Optimised for mobile devices, ensuring accessibility - tenants can report repairs easily and surveyors can use whilst on-site
